Example # 2: Training an Already Obedient Dog

For purposes of this estimated cost summary, we are hypothetically training a dog that is approximately 1 year old. The dog was purchased from a reputable breeder and has been well-socialized with various people, animals, and places. The dog is smart, trainable, and has a strong desire to please. The owner is very committed to exercising and practicing with the dog daily.

Initial Evaluation and Consultation: This is the first step of the program. It helps us understand exactly what your wants and needs are and gives us a chance to answer any questions you may have.

Phase 1: Basic Obedience: Sometimes we have clients come to us with a dog that is already well behaved and has an understanding of the majority of skills and behaviors listed within Phase 1.

Phase 2: Advanced Obedience: In addition to the phase checklist, there are also temperament tests and a skill test that dogs are required to pass for this phase.
